

One-Way System

One Way System for Re-Opening of School – August 2020

In order to maintain social distancing there will be a one-way system operating in Wallace Hall Academy.

To get to classrooms first thing in the morning, after break and after lunch, pupils should follow the arrangements as below:

- To access the lower ground floor you enter the classroom block through the entrance from the playground and go along the corridor to your classroom
- To access the ground floor you should go through The Street and turn right into the corridor or left into music
- To access the upper floor you should go up the stairs from The Street (next to the library) and along the top walkway, left into A2025 ICT room or through the doors and then turn right into the corridor or left into ICT rooms A2023 and A2024

Between periods you should follow the arrows in the staircases, as per the drawing in this document. This will be explained to you in more detail by register teachers on Wednesday 12th August.

At break, lunch and end of school:

- Pupils on the lower ground floor should leave via the door at the far end of the corridor directly into the playground
- Pupils on the ground floor should leave via The Street and exit via the nearest set of doors
- Pupils on the upper floor should leave via the walkway above The Street and down the stairs into The Street and exit via the set of doors immediately at the bottom of the stairs

In corridors, you should always walk on the left until you reach your classroom. If your classroom is on the right you should make sure that the path is clear so you can cross the corridor when you reach the door of your classroom.
