Completion Time is around **10 minutes**

For many years, Dumfries and Galloway schools have been surveying their parents, seeking their views on many aspects of school life and using this information to make improvements. This is a central feature of school improvement planning, providing opportunities for parents to share their experiences of engagement with the school and contributing to priorities for the school going forward.

The census is taking place online using the SmartSurvey platform which offers many benefits including the secure collection, management and deletion of data. Indeed, preparations for the census have been rigorous to satisfy data protection legislation. You can view Dumfries and Galloway Council Privacy Statement [here](#).

The survey is now live and will be available to complete until Monday 6<sup>th</sup> April 2020
