SCHOOL LEAVER INFORMATION

As part of SDS Careers we follow up all school leavers during the summer to check in and make sure all is going well. For the Scottish Government we will contact you to find out what you are doing in September (to check you have started) and March (to check you are still there). This is to check and make sure you are doing okay.

At SDS Careers we offer an all-age service; anyone can come in for help and we have centres all over Scotland.

Lots of useful information for school leavers is available via:
